

**REMARKS/ARGUMENTS**

Favorable consideration of this application and entry of the foregoing amendment are respectfully requested.

A substitute specification including claims is submitted herewith. Eight sheets of substitute drawings are also attached. The attached copy of the specification, including the drawings, is merely a more legible copy than that originally filed. No new matter has been added.

The specification has been amended to include the Sequence Listing submitted herewith on separate sheets. Entry of the Sequence Listing does not raise the issue of new matter as the sequence information contained therein is presented in the application as originally filed. A computer readable copy of the Sequence Listing submitted herewith was filed in parent Application No. 09/380,377, filed September 16, 1999. The paper copy of the Sequence Listing submitted herewith differs from the computer readable copy filed in the parent case only from the standpoint of details provided under the heading "General Information". Otherwise, the paper copy of the Sequence Listing submitted herewith and the computer readable copy submitted in the parent case are the same. It is hereby requested that the computer readable copy of the Sequence Listing filed in connection with Application No. 09/380,377 be used in connection with the present case as well.

Claims 1-27 have been cancelled without prejudice and claims 28-47 have been added in lieu thereof. The new claims are fully supported by an enabling disclosure.
